

FacEnvy 2 in 1 Cleansing Gel

FACENVY

WHY 2 IN 1 GEL CLEANSER ?

Skin cleansing is a daily activity for most individuals. Cleansing involves both a chemical and physical interaction with the stratum corneum to maintain the biofilm on the surface of the skin surface in a hygienic state. Cleansing may also facilitate the desquamation process by mechanically dislodging corneocytes.

2 in 1 Cleanser is designed to cleanse and exfoliate the skin. Keratin build up from the surface of the skin is removed due to the ingredients, **papaya extract** and **subtilisin**, reducing the repeated use of abrasive exfoliants.

HOW IT WORKS?

Subtilisin (serine endopeptidase), which is a protein digesting enzyme, effectively break the bond of the weakened desmosomes on the surface of the epidermis. By freeing these bonds, the cells flake off from the stratum corneum producing a smoother skin surface and allowing better penetration of active ingredients of skin creams.

INGREDIENTS

Aqua, Sodium Lauryol Glutamate, Subtilisin, Quanterium-80, Glycerin, Peg-400, Leuconostoc (Radish Root Ferment Filtrate), EDTA, Papaya Extract, Rose Essential Oil, Xanthan Gum, Polyquaternium-51

COSMETIC COMPOSITION

Gel

PAO

NET WEIGHT

60 ml / 2.03 fl oz

APPLICATION / METHOD OF USE

Cleansing: On a damp face apply a pea size amount of gel onto face in a circular motion for about one minute. Rinse thoroughly with water and apply preferred moisturizer.

Exfoliation: Apply gel on dry skin. Rub in circular motion over face and neck for one minute. Rinse thoroughly with water and apply preferred moisturizer.

Eyelashes: Apply a small quantity of gel between the thumb and index finger. Gently massage lashes. Rinse thoroughly and let air dry. For best results, use with a superfine micro-brush to clean between the lashes.

Make-up removal: Apply gel on dry skin. Rub in circular motion over face and neck for one minute. Rinse thoroughly with water and apply preferred moisturizer.

PRECAUTION

Should be used every other day for sensitive skin. For external use only. Avoid direct eye contact. If eye contact occurs, gently and thoroughly flush eye with water.

IMPORTANT INFORMATION

When 2 in 1 is mixed with water, the product becomes milky in color.

COMPLEMENTARY PRODUCT(S)
